Lesson Design: Careful construction of lessons to remove barriers and provide assess for all students.	Checkpoints: Includes
On the first day of the project students are going to be taking learning profile surveys to help them gain an understanding of themselves as a learner. This will highlight their strength areas and help them to see they are a valuable member of the classroom.	✓ Multiple ways to represent information
Many of the activities are to be completed as a team. This allows students access to peers if they are struggling with an activity/concept. They will be required to have discussions within their group to help make clarify new concepts.	✓ Alternatives to text ✓ Support provided for text comprehension
Students are going to be given three choices for their project. This allows students to pick the project that allows them to play to their particular strengths.	✓ Flexible technology-based materials, strategies and tools ✓ Multiple ways for students show what they know
Students are going to be provided with an example of a completed "Project Team Work Plan" specific for the project they have picked. This will allow students to see an example of what needs to be completed in order to be successful with the project. Groups will then fill in their own "Project Team Work Plan".	✓ Conspicuous supports for learning new strategies ✓ Mechanism for rapid feedback to learners
The definitions of the different text features are going to be delivered via an interactive PowerPoint. This PowerPoint provides real world examples and questions after every section allowing for immediate feedback.	✓ Active student-centered methods ✓ Choice, Challenge, Novelty
	✓ Connected, relevant learning
